TEASER

Passionate about programming, I'm looking for a job in wich I can up my skills and learn new things.

EXPERIENCE

2022 (8 months) Openclassrooms : Professional experience

Creation of a corporate social network : front-end part (**react and css**) and back-end part (**mongoDB, node, express, API Rest**).
Coding of the front-end javascript part of an e-commerce website
Good knowledge of the use of github

2022: Self taught experience

Creation of my own website with React
Creation of an app to calculate shift time for seasonal workers
Creation of a mini space Invaders game with typescript

2018-2020 (2 years): New-Zealand / Australia

I lived for about 2 years in these foreign country where I learned a lot while working on farm jobs and delivery company. It helped me with my english and my social skills.
